Adva Cohen Zamir

I contacted Dr. Telli and his team in Pi Legal Consultancy asking them to handle a bureaucratic matter for me in Turkey. It turned out that the matter was more complicated than we all thought, but they did not stop handling it until getting the best possible result. During all that time they were very reliable and pleasant. They also kept updating me and consulting with me. I highly recommend working with their office.

Dr. Telli and his staff assisted us with our data security challenges in Turkey, and they were quite prompt. I located them and contacted them via Google Maps. What makes them unique is that WeChat, which is incredibly practical for Chinese consumers, can be used to contact them.

The team at Pi helped and supported myself and my wife to obtain my family residency permit without any problems. Over this journey they performed most of the work and made a clear and easy path to this. They also were extremely helpful in helping to understand visa issues and working directly with migration office to help us resolve any issues. They were extremely responsive at all hours of the day and night and were always providing updates on the status. Always hard at work for our case. Thanks especially to Büşra Dereli and Dr. Kutlay Telli who directly supported us with their expertise during this journey at all hours and days.
